Office Action Summary

Art Unit: 1763

15. This action will not be made final due to the new grounds of rejection.

16. Claims 9-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

-The last line of claim 9 is confusing. It is unclear to the examiner what conditions must occur in order for spontaneous etching to be substantially avoided in applicant's claimed etching process. Further, it is unclear what exactly applicant considers to fall within this domain. What type of etching process constitutes a substantial avoidance of spontaneous etching? Applicant's claims are vague, and indefinite in this regard. Also, applicant's specification provides no guidance in this matter.

17. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

18. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner George A. Goudreau whose telephone number is (703) -308-1915. The examiner can normally be reached on Monday through Friday from 9:30 to 6:00.
